

## Carbon Reduction Plan

Supplier name: **Net Consulting Ltd.**

Publication date: 29<sup>th</sup> October 2021

### Commitment to achieving Net Zero

**Net Consulting Ltd.** is committed to achieving Net Zero emissions by **2030**.

### Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

<b>Baseline Year: 2019</b>	
<b>Additional Details relating to the Baseline Emissions calculations.</b>	
<i>Net Consulting Ltd. has not previously assessed or reported their emissions but was able to access historic data from 2019 to calculate emissions from that year.</i>	
<b>Baseline year emissions:</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
<b>Scope 1</b>	0.37
<b>Scope 2</b>	19.16
<b>Scope 3</b> (Included Sources)	12.69
<b>Total Emissions</b>	<b>32.22</b>

## Current Emissions Reporting

Reporting Year: 2020	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	0.18
Scope 2	16.72
Scope 3 (Included Sources)	8.24
<b>Total Emissions</b>	<b>25.14</b>

## Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 14.64 tCO<sub>2</sub>e by 2025. This is a reduction of 41.76% compared with 2020, but we acknowledge that the 2020 figures are likely to be lower than those recorded in following years, due to various lockdowns in 2020 forcing people to work from home and thus significantly reducing car travel.

Progress against these targets can be seen in the graph below:

## Carbon Reduction Projects

### Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2019 baseline. Due to only being introduced recently, the carbon emission reduction achieved by these schemes can't currently be calculated, however in future years, we will be able to calculate a tCO<sub>2</sub>e, percentage reduction against the 2019 baseline and these measures will be in effect when performing the contract.

- *Installation of x5 new EV charging points to make it easier for employees to choose an electric vehicle for commuting*
- *The installation of new energy efficient LED lighting across the whole office*
- *An introduction of a 60/40 office / working from home split to reduce the amount of commuting conducted by employees*
- *The commencement of work geared towards achieving ISO140001 certification*
- *The introduction of a company management platform called Krow which will help eliminate printing holiday and expense forms, thus reducing printer, paper and toner usage*
- *Introduction of a cycle to work scheme, allowing staff to choose cycling over driving when travelling to work.*

In the future we hope to implement further measures such as:

- *Offering a salary sacrifice scheme, allowing staff to easily and affordably lease an electric vehicle*
- *DocuSign across the business to further reduce printer, paper, and toner usage*
- *Examine our suppliers more closely to ensure all efforts are made to source goods in the most sustainable way possible.*

## Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

### Signed on behalf of the Supplier:
